## IM-30CNE-HC / IM-30CNE-HC-25 CUBE ICE MAKERS

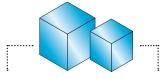

## **Key Features**

The IM-3oCNE-HC and IM-3oCNE-HC-25 are compact sized cube ice makers, which utilise Natural Refrigerant R290.

- Energy efficient, with the IM-3oCNE-HC generating 19% energy savings compared to HFC equivalent model.  $^{\ast}$
- Members of the Emerald Class, Hoshizaki's new range of climate friendly ice makers.
- Can produce up to 30 kg and 25 kg of cube ice per 24 hours respectively (AT.10°C.WT.10°C).
- Unique ice making system that has an automatic rinse cycle. After every new batch of ice, the water reservoir drains and refills with fresh water. System comes with a magnetic water pump that has no direct coupling, which prevents
- ${\bf Closed\ water\ circuit\ offers\ the\ ultimate\ contamination\ protection, by\ reducing}$ the number of points at which impurities can enter the ice making process.
- Electronically controlled to ensure an optimised ice making process under varying circumstances without the need for physical adjustments. Quality of ice is always consistent.
- Easily cleanable air filter allows end-users to carry out routine cleaning schedules. Extends product life expectancy and reduces the frequency and costs of maintenance call-outs.
- Stainless steel exterior with integrated door handles provides a hygienic and high quality finish.
- Based on Internal comparative study. Please contact your local sales branch to find out more.
